## CERTIFICATIONS

CSS for JS Developers

(By Josh Comeau)

Teaching Assistant

(Object Oriented Programming)

## EXPERIENCE

### DEVREV | MEMBER OF TECHNICAL STAFF

July 2023 - Present | Bangalore, India

- Headed the **end-to-end development of a personalized navigation system**, improving user experience and receiving positive feedback from enterprise clients
- Core contributor to the revamp of the notification page, significantly reducing information overload and **increasing notification consumption from 30% to 70%**
- Led and mentored the front-end team** responsible for handling notifications, discussions, web-sockets and navigation in the app
- Provided **front-end insights in product and design discussions** of the team - ensuring technical feasibility and optimizing complexity
- Part of the core team working on improving and monitoring the app's performance

### STRATZY

| FOUNDED ENGINEER & WEB LEAD

Aug 2022 - June 2023 | Thane, India

- Full-stack development using **NextJS, Redux, Tailwind CSS, Socket-io** (Frontend) and **NodeJS, Express, MongoDB, Redis** (Backend)
- Spearheaded the development of a **B2B SaaS product** from scratch, designed to **scale user transactions by 20-30X**, including integration of multiple broker logins and investment flows
- Developed a payments website with **Razorpay integration** for premium subscriptions, significantly boosting revenue to become the company's **primary income source**
- Managed and mentored a **team of 2-3 interns**, overseeing the entire web development lifecycle

### | FOUNDED ENGINEER

June 2021 - Apr 2022 | Remote

- Enhanced Admin Dashboard by **adding new features**, creating UI layouts, and optimizing the admin panel
- Revamped around 50% of the webapp**, including addition of investment flows and integration of various stock brokers

### CAARYA | UI DEVELOPER

Oct 2020 - Mar 2021 | Remote

- Developed **responsive web and mobile applications** using **React, Redux, and React Native**, tailoring solutions to meet specific client requirements

## PROJECTS

### ERP ASSIST | HTML, JAVASCRIPT, TAILWINDCSS

Hobby Project for helping fellow students

**Chrome extension** that checks the availability of courses and generates possible timetables for faster decision-making during the semester-start registration.

### EXAM RESOURCE ALLOCATOR | REACTJS, REDUX, MATERIALUI

Dev. Project under Prof. Neena Goveas

Web application to **streamline exam logistics** for efficient allocation of rooms, invigilators, and students. Goal was to automate the manual process done using spreadsheets.

### SPENNY'S MARKETING WEBSITE | NEXTJS, TAILWINDCSS

Freelance
